

Thank you for choosing Box of Rain Irrigation, LLP services. Please use this form to choose your service plan. Box of Rain Irrigation cannot provide services for elements tied into interior plumbing. A licensed plumber is required to provide service elements connected to interior plumbing.

New Jersey law requires annual testing of backflow prevention devices. This law and service is to ensure contaminated water isn't entering the community water systems. Auto-enrolling service allows Box of Rain to auto-schedule irrigation activation services. This requires technicians to have access to codes or keys for timing and backflow units. Auto-enrollment does not account for service calls post-activation. Service calls will need to be scheduled with the office staff.

Declining Auto-Enrollment will require the homeowner to schedule all service appointments with the office staff. Specific dates and times are not guaranteed but will be fulfilled based on availability. Listed below are single service rates, package service rates and additional services. Invoices will reflect the below 2025 service rates. Rates do not reflect materials for adjustments or repairs. Any invoice that is not paid and must be referred to an attorney or agency for collection will require the signee to incur all collection or attorney fees charged to Box of Rain.

**CHECK DESIRED SERVICES AND RETURN CONTRACT AS SOON AS POSSIBLE
